

How do I obtain a sample product?

STEP-BY-STEP INSTRUCTIONS

At CSC LED, we understand that occasionally a sample product is required to secure a sale.

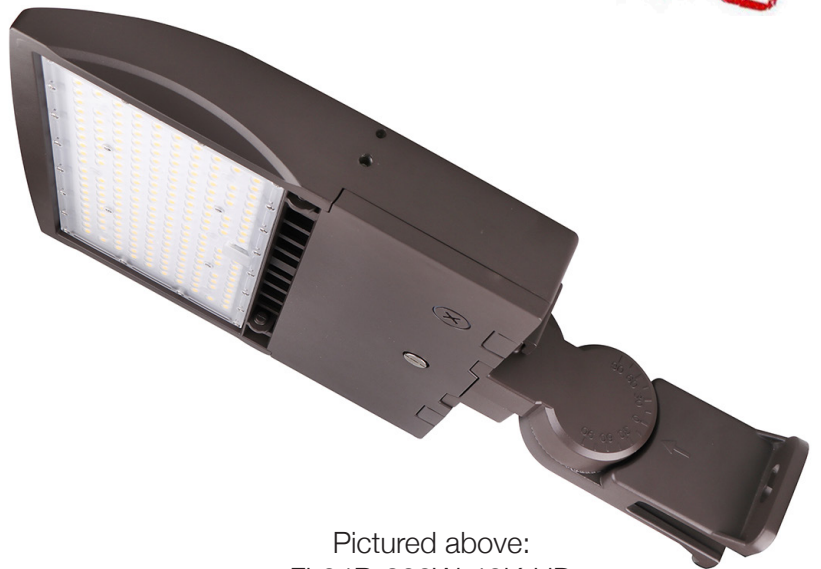

We are often flood-ed (pardon the pun) with such requests.

In order to quickly and efficiently, process your sample request, please follow the steps below:

1. Submit your purchase order with the full amount of the sample item(s).
2. Indicate your preferred courier and account number.
3. Return the product unused, in sale-able condition, and in original packaging, within 30 days.
4. After receiving and verifying your return, we will issue a full credit on your account for the sample product.

If you have any questions or require any further information, please feel free to contact us at info@csc-led.com
